

Fall 2002

## **Interagency Aviation Training Website**

### **On-Line Training Modules**

The Interagency Aviation Training website has been available to Department of the Interior and U.S. Forest Service employees since June 2001. The address for the site is <http://iat.nifc.gov>. The site may also be accessed from the OAS homepage ([www.oas.gov](http://www.oas.gov)) or the USFS Aviation homepage ([www.aviation.fs.fed.us](http://www.aviation.fs.fed.us)).

Students taking the on-line training must register and take an on-line test to receive credit for taking the training. However, the on-line training modules were designed so that students may view them as many times as they wish before taking the on-line test.

#### **10 Modules Now On-Line:**

- **A-101 Basic Aviation Safety \***
- **A-104 Overview of Aircraft Capabilities and Limitations\***
- **A-105 Aviation Life Support Equipment\***
- **A-106 Aviation Mishap Reporting\***
- A-107 Aviation Policy and Regulations I
- **A-108 Pre-Flight Briefing and Debriefing\***
- A-109 Aviation Radio Use
- A-110 Aviation Transport of Hazardous Materials
- A-111 Flight Payment Document
- **A-113 Crash Survival\***

\*Modules in **BOLD** comprise the B-3 Basic Aviation Safety Course. This course is required for DOI employees who participate in Special Use missions.

#### **4 Modules Coming Soon:**

- A-112 Mission Planning and Flight Request Process
- A-201 Overview of Safety and Accident Prevention Programs
- A-202 Interagency Aviation Organization
- A-204 Aircraft Capabilities and Limitations

## Not Just On-Line Training!

Some additional the features that can be found on the Interagency Aviation Training (IAT) website are:

- **Training Schedules for Classroom and ACE Training**  
View and register for training classes being presented in your area.
- **On-Line Aviation Glossary**  
A comprehensive list of commonly used aviation terms.
- **On-Line Aircraft Library**  
A one-of a kind aviation library featuring 3-D images of aircraft most frequently used in DOI and USFS aviation programs.
- **Commonly Asked Questions**  
Answers to the most commonly asked questions regarding the IAT program and website.

## ACE

The Aviation Conference and Education (ACE) is a weeklong event that offers over 20 IAT training modules. The Interagency Aviation Training and Qualifications Working Team developed the ACE as part of the IAT program to provide DOI and USFS employees an efficient and effective method to complete aviation training. Attendees create their own agenda by taking training modules based on their individual aviation duties and/or position. ACEs are offered at various locations and times to meet the needs of employees throughout the country.

### 2002 - 2003 ACE Schedule

New Orleans	November 18-22, 2002
Salt Lake City	March 17-21, 2003
San Francisco	April 14-18, 2003

### Which modules do I need to attend at the ACE?

Attendance requirements depend on your aviation position or your responsibilities and duties. You may find a list of required modules on the IAT website. Additional requirements for USFS employees can be found in Forest Service Manual 5109.17.

## What Happened to the Interagency Aviation Management and Safety (IAMS) Course?

The curriculum that was presented at the IAMS course was also being presented at the ACE—and by the same instructors! In an effort to reduce redundancy in aviation training programs, the Interagency Aviation Training and Qualifications Working Team (IATQWT) decided to consolidate the two forums. The following shows the IAMS curricula and the ACE equivalents:

IAMS Curricula	ACE Curricula
Aircraft Capabilities and Limitations	A-104 Overview of Aircraft Capabilities and Limitations A-204 Aircraft Capabilities & Limitations
Airspace Coordination	A-203 Airspace Coordination
Aviation Management Philosophy	None
Aviation Planning	A-211 Aviation Planning
Aviation Policy & Regulations	A-107 Aviation Policy & Regulations I A-307 Aviation Policy & Regulations II
Aviation Program Training	None
Human Factors in Aviation	A-303 Human Factors in Aviation
Interagency Aviation Organizations	A-202 Interagency Aviation Organizations
Mishap Review	A-201 Overview of Safety & Accident Prevention Programs
Post Accident Processes & Procedures	A-301 Implementing Aviation Safety & Accident Prevention
Procurement	A-206 Aviation Acquisition/Procurement I
Risk Management	A-305 Risk Management

**NOTE:** The IAMS course was a prerequisite for the D-510 Supervisory Dispatcher Course. See the [IAT](#) or the [NARTC](#) website for more information about ACE modules that are now required as a prerequisite for D-510.

## Contacts

For more information about the Interagency Aviation Training program contact Kris Damsgaard, OAS National Aviation Training Officer, 208-387-5812 or [kris\\_damsgaard@oas.gov](mailto:kris_damsgaard@oas.gov), or Ron Hanks, USFS Aviation Safety and Training Officer, 208-387-5607 or [rhanks@fs.fed.us](mailto:rhanks@fs.fed.us).
